FIFTY-FOURTH ANNUAL REPORT

YOUR Committee have pleasure in presenting the Fifty-fourth Annual Report of the work of the Institution, which under GOD'S blessing continues to prosper. Much has been done, but much more remains to be accomplished.

Your Committee wish to avail themselves of this opportunity of expressing their deep sense of the great loss which the nation has sustained in the death of Queen Victoria. Her blind subjects especially owe her a great debt of gratitude for her loving sympathy with them and for them. The work on their behalf is entirely a product of her reign.

Numbers Benefited. The increasing usefulness of the Institution is proved by the fact that each year its benefits are being extended to a greater number of Blind Persons, the past year showing an increase of nine so benefited over any previous year. The figures are as follows :—

Resident Pupils	140
Day Pupils	4
Teachers	11
Day Workers	57
Traveller	1
Middlemore Trust and other Beneficiaries	24
Clerk	1
Porters	2
Under Nurse	1
Adult Blind	371
Total	<u>612</u>

The foregoing figures by no means represent the limit of your Committee's operations among the Blind. Scarcely a day passes which does not bring enquiries relating to the cause of the Blind, often from remote parts of the world. These are always dealt with in the careful manner they deserve, the desire of the Committee being to assist with a willing readiness in the amelioration of the condition of the Blind whenever it lies in their power to do so. One of the most important communications received has been a set of questions from the Secretary of the State Board of Education for the Commonwealth of Massachusetts, U.S.A. These enquiries related to the instruction of the Adult Blind at their own homes, and affected the welfare of more than 3,000 Blind Persons.

With much thankfulness your Committee have
Health. to report that the health of the pupils has been exceptionally good, no cases of sickness of a serious character having occurred. This is the more gratifying because a large percentage of the children are very young; moreover the Blind as a class are far from being robust. The Hon. Medical Officers Dr. Rickards and Dr. Scurrah, the Hon. Ophthalmic Surgeon, Mr. Priestley Smith, and the Hon. Surgeon Dentist, Mr. W. H. Bowater, have been most assiduous in their attentions to the pupils, and deserve most cordial thanks.

The standard of work in the Schools has
Education. been maintained with great efficiency, and compares most favourably with that in schools for sighted children. This is the more satisfactory when it is remembered that the teachers are handicapped not only by the blindness of their pupils, but by the varying ages at which their scholars are admitted into the Institution, some

having lost their sight only a short time before their school training, under ordinary circumstances, would have ceased.

One of the most interesting features of the education of the Blind is the Kindergarten training of the younger children. Many of these are little more than blind babies, and when admitted, are almost entirely ignorant of objects that lie beyond the reach of their arms. Kindergarten occupations, Musical Drill, Singing, and a little study, speedily produce most beneficial results on these afflicted little ones, and pave the way for the sterner realities of life. It is for these children that the establishment of a Kindergarten School was authorised by the Governors, a reference to which will be made hereafter.

The Report of H.M. Inspector, Dr. Airy, upon the work of the past year, just received from the Board of Education, is as follows :—

“There is every reason to be thoroughly satisfied with the teaching in all departments of the School. The work of the boys throughout, and especially that of the first class, is highly creditable, and the girls showed marked intelligence in several subjects. The gymnastic exercises of the boys and the dancing and other physical work of the girls were very well done. The infants have been managed with kindly and successful care. The Reading in all the divisions was good, and the Singing excellent. The Kindergarten Manual work displays much ingenuity, and has produced excellent results. I am glad to know that the past year has been almost free of illness. The happy look and evident good health of the inmates testify to the able manner in which everything relating to their bodily comfort is conducted.”

Cookery, Shorthand and Typewriting, referred to at length in the last Report, are now well established, and in the study and practice of them the pupils have made marked advances. The speed at which shorthand is written on the

Embossed Shorthand Machine has greatly increased, while the Machine itself has been further improved by being made practically noiseless.

In the Music Department considerable advances **Music.** have been made. In March, 1900, twelve students and ex-students entered for the Society of Arts Examination—five in Harmony and seven in the Rudiments of Music. Of these four passed in Harmony and five in the Rudiments of Music. All who passed took the higher certificates. This result is especially gratifying inasmuch as, for the Higher Certificate, 75% of the blind students passed, while of their more fortunate sighted competitors only 32% passed. It should be stated that the Blind Students sat in open competition with the sighted, and neither asked nor obtained any concession whatever, although one-third of the time allowed for the papers was necessarily occupied by the pupils in recording the questions in their own embossed characters. Dr. Rowland M. Winn and Mr. Theodore S. Tearne, Mus. Bac., kindly undertook to dictate the questions to the Blind at the examinations. The pupils were prepared by Mr. A. R. Gaul, Mus. Bac., the Head Music Master of the Institution, who is to be congratulated upon the result.

Lessons are now being given at the Institution with a view to preparing students and ex-students to take the A.R.C.O. Diploma of the Royal College of Organists. This course includes a practical knowledge of Organ Construction, which would have presented considerable difficulty, had not Mr. Walter J. Bird, of the Strad Organ Works, Birmingham, come forward and presented a variety of organ pipes, etc., so constructed as to be easily opened and examined by the Blind. Mr. Bird has also most kindly offered to build and present to the Institution a model Organ, so made that every

part can be handled by the Blind. It may not be out of place to here mention that a former pupil of the Institution holds contracts for tuning and repairing a number of Church Organs in the vicinity of Northampton.

In the Pianoforte Tuning Department there **Tuning.** has been good progress. For several years past Messrs. W. S. Riley & Son, 100, Corporation Street, Birmingham, have most kindly allowed the Senior Pupils to practise Pianoforte Tuning in their Show Rooms. The same firm has also now gratuitously arranged for these students to receive practical tuition in Pianoforte Construction, so that they may be enabled to repair or replace any part of an instrument that may become worn or broken. This arrangement will meet a long felt want, for although instruction in repairing has for many years been given at the Institution, it was not possible to make it of such a practical character as could be desired. Instruction in the tuning and repairing of American Organs and Harmoniums is about to be undertaken, and Messrs. Riley & Son have given two Harmoniums in order that pupils may practise tuning upon them ; they have also promised to employ a pupil who is now completing his training.

While the South African War was at its height your Committee felt they were not **Kindergarten** justified in appealing to the public for **School.** funds to carry out the Kindergarten Scheme. They now feel that they ought no longer to delay, and accordingly are taking the necessary steps to bring the claims of the little blind children before the public. The necessity for extension will be understood when the fact is stated that during the 12 months ended May, 1901, there were 91 candidates for admission to the Institution,

but of these only 27 could be received. Sixty-four children were thus refused, solely for lack of room. In order that this serious state of things may be averted as speedily as possible, your Committee most earnestly appeal for substantial support for the Kindergarten Scheme, which will place immediately at their disposal accommodation for at least 40 more children. The condition of these little children is so helpless and so pitiable that they are confident they will not appeal in vain.

Middlemore Trust.

The Richard Middlemore Trust Fund has been of material assistance to 23 Blind Persons who have completed their training and required a start in life. Grants may consist of gifts or loans of materials, tools, musical instruments, etc., indeed the funds may be used by your Committee in any manner they consider best calculated to assist the Blind beneficiaries. The sum of £91 6s. 3d. was expended during the past year.

Trade.

The care of the Blind can not be allowed to cease when their education and training are finished. They must be further assisted by being provided with employment, to place them in a position to fight the battle of life successfully. The Institution Workshops in connection with the Trading Department meet this need in an admirable manner. For the past year and several preceding years there have been marked increases in the Trade Returns, in the number of blind employés, and in the wages paid to them, as the following figures show:—

	1895.	1900.	1901.	Increase in past year.	Increase during the last six years.
Sale of Goods ...	£2481	£4977	£5908	£931	£3427
Blind Workers ...	20	48	57	9	37
Wages to Blind Workers	£476	£1097	£1499	£402	£1023

The item "Wages to Blind Workers" by no means represents the total amount disbursed among them. The payments to several appear under other headings, such as "Salaries," "Travellers' Expenses," "Relief of Necessitous Blind," etc. Considering the immense and almost insurmountable difficulties that have to be contended with in competing against skilled sighted labour, your Committee feel that these results give cause for great thankfulness and congratulation.

For the purpose of protecting the interests of the Blind, several articles have been patented, in addition to those mentioned in the last Report. In one case—that of a needle invented by the Secretary—the Patent Fees were most kindly paid by Mr. Thomas F. Walker, of Ashfield, Edgbaston. This tool has already proved of great value in economizing labour, and as an example the case of three Blind Women may be quoted, whose weekly wages of late, by its use, have risen 100%.

The benefits of the Trading Department are also extended to Blind Persons in business on their own account. It frequently happens that these are not able to dispose of all the articles they make, in which case your Committee are always ready and willing to purchase their surplus stock and dispose of it. This is a matter to which they attach great importance. But for such help it is certain that several worthy Blind Persons in the city could not possibly have succeeded in business, or even obtained a meagre livelihood.

With regard to the future, the Committee fear that it will be impossible to further develop the Trade Department to any appreciable extent, unless increased accommodation can be provided, the Workshops being now filled to their utmost capacity. It is to be hoped that when the Kinder-

garten School is established means may be forthcoming for building new Workshops on the Harborne land, where there is ample space. Would not the Workpeople of Birmingham contribute towards the erection of Workshops for their less fortunate fellows?

The increasing popularity of the Autumn
Concerts. Entertainments is evidence of the growing interest of the public in the Institution.

These entertainments extend over eight evenings, and open with a Gymnastic Display, followed by a Sale of Goods made by the Blind, and close with a Concert. On two evenings Lantern Lectures were delivered by the Secretary, interspersed with demonstrations by the pupils. The returns for the last series were as follows :—

Visitors	2,820
Sales	£161 15 7
New Subscriptions	£ 6 16 6
Donations, &c.	£ 23 19 8

Exhibitions by Blind Workers have
Public been given during the year at the
Demonstrations. Y.M.C.A. Conversazione, the Soiree of the Teachers and Students of the Municipal Technical School, and the Conversazione held at the Friends' Hall and Institute, Moseley. In every case the demonstrations created great interest. Your Committee look upon such occasions as opportunities for increasing the interest of the public in the Institution and its Work which ought not to be missed.

The work among the Adult Blind has
Adult Blind progressed in the same satisfactory way as
Branch. in previous years. The energetic Blind Teachers, Miss Beighton and Mr. Walford,

have systematically visited and assisted in various ways 371 persons residing in their own homes in different parts of the city and district. A constant stream of grateful letters to your Secretary testifies to the value of the Teachers' work. About 160 members of this Branch are 60 years of age and upwards. From this it will be seen that comparatively few are capable of learning a trade, but every suitable case is reported to your Committee, and if possible employment is provided. Several of the younger men and women have been assisted in this manner, and are now in the Institution Workshops. Fifty new cases were discovered during the past year. One, who had travelled much in his business and had been a great reader, felt the loss of his sight most acutely. He has been taught to read, and in addition to several portions of the Holy Scriptures, he has read many other books published in the Embossed Type.

The following Pensions have been obtained for members of this Branch during the year :—

- 4 of £10 each, from Hetherington's Charity for the Blind.
- 5 of £5 each, from the Clothworkers' Company.
- 1 of £6, from St. George's Indigent Blind School.
- 1 of £26, from the Society for the Relief of the Blind of the Jewish Persuasion.

All these Pensions have been procured from London Societies, and it is a most regrettable fact, to which your Committee have often previously called attention, that no benevolent person has come forward and founded Pensions for the Blind of our own great city. For the large majority of the Aged Blind the bestowal of Pensions is the best means of assisting them.

The thanks of the Committee are due to those ladies who have again so kindly collected Funds for this Branch ;

and to those who have made or given garments for needy members.

Your Committee warmly thank Mrs. Dove, **Executive.** the Lady Superintendent, who has most assiduously cared for the comfort and happiness of the inmates, both Pupils and Staff. They also desire to express their appreciation of the loyal and hearty co-operation of Mr. Main, the Head Master; Miss Cousins, the Head Mistress; and of the other members of the Staff in all departments.

Your Committee cannot omit a reference to the continued services of the Secretary, Mr. Stainsby, who not only has been eminently successful in directing the Trading Department, but has invariably given the greatest assistance in forwarding the objects of the Institution. Mr. Stainsby completed 21 years of service in February last, when a Testimonial was presented to him by the Workers in the Trading Department as an expression of their "high appreciation of and gratitude for all that he had accomplished on behalf of the Blind."

The Legacies received during the past year amount to £483 17s. 4d., and the Donations to £99 12s. 1d., including Twenty-five guineas from E.J.H., per the Hon. Sec., and Ten pounds from the *Daily Mail* Christmas Tree Fund. The Triennial Collections for the Amalgamated Charities on Hospital Sunday resulted in a cheque for £561 18s. 5d. for this Institution being handed to the Chairman by the Lord Mayor. This amount includes £21 from Alfred J. Bolus, in addition to a new Subscription of Two guineas; £10 10s. each from Edward Ansell, Joseph Barrows, J. C. Bradbury, Walter N. Fisher, Mrs. Heaton,

G. H. Johnstone, Miss G. Pountney, W. T. Rushton, and Howard Wilkinson ; and £10 each from Joseph Ash and Anonymous. To these and the other many and generous contributors during the year, your Committee tender their sincere thanks.

The Subscriptions show a net increase
Subscriptions. of £41. When the size and wealth of the city, however, are considered, the Subscription List still falls far short of what it should be, and of what is urgently needed to meet the Annual Expenditure. Less than one halfpenny per head of the population is surely a meagre annual thank-offering for the inestimable blessing of Sight !

It is with great anxiety that your Committee
Finance. view the recurring deficiency of ordinary income. The balance of expenditure during the year ended in March last, thus unprovided for, amounts to £994 18s. 9d. To meet this and the deficiency of the previous year the sum of £1,699 13s. 1d. has been transferred from the Legacy Account.

There is a further deficiency in connection with the Adult Blind Teaching and Visiting Branch, the adverse balance now amounting to £248 12s. 10d. Friends are earnestly invited to assist in paying off this debt, and in obtaining subscriptions in aid of this special Branch.

The claims on the Institution are steadily increasing, and every care and economy is exercised by your Committee in dispensing the funds placed at their disposal, but, unless the benefits of the Institution are to be sadly restricted, there must be a greatly increased response from the public in providing the necessary income.

We would take our appeal to yet higher ground. There is a blindness worse than the loss of physical sight, and "to open the blind eyes" in every sense, by GOD'S Help, is the great and supreme object of our Institution. Every care is taken, therefore, in the religious instruction of those committed to our charge. When we consider the difficulties which lie in the way of us all, how hard naturally is the battle which we have to wage against temptation, we ought surely to be gladly willing to assist with our whole heart, and by every means in our power, this effort to enable "the blind to see out of obscurity and out of darkness."

We gratefully acknowledge GOD's helping Hand in the past, and we go forward in the fullest hope and belief that HE will continue to assist and bless our labours.

By order of the Committee,

EDWARD M. GOODMAN, *Chairman.*

G. H. CUMING BUTLER, *Hon. Secretary.*

INFORMATION RESPECTING THE ADMISSION OF PUPILS INTO THE INSTITUTION.

COMPULSORY EDUCATION OF THE BLIND.

Since the passing of the Elementary Education (Blind and Deaf Children) Act, 1893, all blind children between the ages of five and sixteen must attend a certified School for the Blind.

APPLICATION FOR ADMISSION.

Persons desiring a "Form of Application" should write to the Secretary. (A fac-simile of the "Form" will be found on pages 42 to 45 of this Report). When the "Form" is filled up it should be returned to the Secretary.

ELECTION OF PUPILS.

All Pupils are elected by The Committee.

QUALIFICATIONS.

Applicants are eligible for admission until twenty-one years of age, but preference is given to those under sixteen. They must either be totally blind, or not possessed of sufficient sight to be able to read the ordinary school books used by sighted children. They must also be free from bodily and mental defects which would prevent them receiving instruction, or from following some useful occupation.

HOLIDAYS.

There are holidays twice during the year, when all pupils are required to return to their homes: *viz.*—five weeks at Midsummer, and four weeks at Christmas.

The travelling expenses must in all cases be borne by those who are responsible for the payments.

By a concession of the Railway Companies, all blind pupils leaving Institutions for their Midsummer or Christmas holidays, and returning at the close of the vacations, are allowed to travel the double journey for single fare.

VISITING DAYS.

BOYS—First Saturday in the month, from 1.30 to 5 p.m.

GIRLS—Last Saturday in the month, from 1.30 to 5 p.m.

CHARGES.

A uniform charge of £5 5s. od. per quarter is made.

This payment *includes* board, lodging, education, and clothing after the first outfit, but is exclusive of travelling expenses.

All payments must be made in advance.

In case the parents are too poor to make the necessary payments for their child's education, application should be made to the Clerk of the School Board (or School Authority) for the district in which the child resides. The School Board is bound to take steps to educate the child by sending it to a Certified School until it reaches the age of sixteen. If the circumstances of the parents permit, the Board may demand from them a contribution towards the cost of their child's education. The Guardians of the Poor have powers to make the payments *after* the age of sixteen, and if the parents cannot afford to do so, application should be made to the Guardians.

N.B.—Although payments are made to the Institution towards the maintenance and education of the Blind, it must be clearly understood that *these are by no means sufficient for the purpose*, the remainder requiring to be supplied by the benefactions of the Charitable.

PREVENTION OF BLINDNESS.

ADVICE TO MOTHERS AND NURSES.

It cannot be too widely made known that many persons are blinded every year by diseases which are preventible and curable. The most destructive of these diseases is the *Ophthalmia of new-born infants*. Nearly one-third of the present Inmates of this Institution owe their blindness to this cause, and the same high proportion has been found in other schools for the Blind. It is not too much to say that in nearly all these cases the eyesight might have been saved by proper treatment at the commencement of the disease. The disaster usually arises through ignorance of the danger and consequent delay in obtaining medical treatment.

This form of Ophthalmia is due to the infection of the baby's eyes with irritating matter during or very soon after birth. About the third day after birth—sometimes earlier, sometimes a little later—the child's eyelids become red and swollen, and begin to discharge yellow matter. *This is the sign of danger.* Skilled medical advice should be obtained without a day's delay, and in the meantime the baby's eyes should be thoroughly and frequently cleansed in the following way :—

Place the baby on its back, with a cloth under the head ; separate the eyelids gently with the thumb and finger, and with a bit of soft, clean rag drip warm water freely into the eyes, so as to wash away the matter as thoroughly as possible. Work the lids about gently over the eyes so as to bring the

matter out from underneath them, and do not be content till you have got it all away. Repeat this, in a bad case, at least every hour through the day, and every two hours through the night. In addition to this the drops or solution ordered by the medical man must be regularly and carefully used according to his directions. If this treatment be begun at once the eyes will probably be out of danger in a few days. If it be neglected they may be permanently blinded within a fortnight.

Caution.—The discharge is very catching. Be most careful that no particle of it finds its way to your own eyes. Burn every bit of rag after you have used it, and wash your hands thoroughly.

In Maternity Hospitals and similar Institutions for the help of women of the poorer classes, this disease was formerly very common. It has now been almost banished from such Institutions by the routine practice of dropping into the eyes of every infant, immediately after birth, one drop of a 2 per cent. solution of nitrate of silver. The non-infected infants are not injured in any way thereby, while the infected ones are saved from possible disaster. The general adoption of this practice, especially among the poorer classes, would undoubtedly diminish the number of persons blinded from birth to a very considerable extent.

PRIESTLEY SMITH,

Ophthalmic Surgeon to The Institution.
